

Mark Lancaster MP unveils New Bradwell St Peter FC's

Mark Lancaster MP attended New Bradwell St Peter FC last week to unveil its new changing rooms, training area and spectator facilities. The Football Stadium Improvement Fund, supporters of the Football Foundation, and the largest funder of non league football in the country, supported the project with a grant of £87,469.

The funding has enabled New Bradwell St Peter FC, which forms part of New Bradwell Sports Association, to transform its changing facilities making them considerably larger, provide separate facilities for officials, add a first aid / treatment room and provide disabled toilets.

A floodlit training area has also been generated, as well as a new pathway around the football pitch, which is suitable for wheelchair access and new spectator toilets have also been developed.

Mark Lancaster MP said: "I was delighted to have been involved with supporting the club recently and share with the local community great pleasure in seeing the excellent new facilities."
