

Mark celebrates 20th anniversary of the MS Therapy Centre

The Milton Keynes Multiple Sclerosis Therapy Group have celebrated their 20th year in operation.

City MP, Mark Lancaster, attended the celebration at the MS Therapy Centre in Stacey Bushes, which offers those who suffer from MS therapeutic massages, use of an Oxygenation Chamber and Passive Exercise Equipment to relieve the symptoms of the disease.

The charity which receives support from the MK Community Foundation, was founded 20 years ago and has helped hundreds of people across Milton Keynes with the condition.

Mark said "The Therapy Centre is a unique facility which has been a huge support to many in our community who have developed Multiple Sclerosis. I am delighted that they are celebrating their 20th year and am sure they will go on to have another very successful 20 years."
