

Local MP supports mobility business in 20th year

City MP Mark Lancaster has celebrated the 20th year of Milton Keynes Mobility being in business.

Milton Keynes Mobility (also known as Carver Care) originally opened a shop on Newport Pagnell High Street 20 years ago, offering care solutions and equipment to those in need.

During the past 20 years the local business has expanded and now has other shops in Bletchley, Luton and Winchester offering personal advice to those who need help in keeping mobile at home.

Mark said "It is always good to see local businesses thriving but with such a care focussed approach Milton Keynes Mobility have helped our community phenomenally. I am delighted to have been able to celebrate their success and I have no doubt they will continue to prosper."
