

Mark catches up with Market Traders

MILTON Keynes North MP Mark Lancaster recently met with the Milton Keynes Market Traders Association to discuss progress they have made since they formed earlier this year.

The association, who formed in response to proposals to build a Primark on part of the current site of the Market, are now working to promote the market and to attract more shoppers.

Mark who has supported the market traders from the beginning as they formed their group heard of how they have been working to improve the area and of their plans to hold a Market Fun Day in August.

Mark said "I am pleased to see that the Traders have come together to promote our local market and protect their interests. It is so important that this valuable community asset is looked after well and I for one am looking forward to attending their fund day at the end of August."
