

Mark visits Buskers Coffee Shop

Mark Lancaster MP enjoyed a musical visit to Buskers Coffee Shop in the Wolverton Park development this week.

With regular supper club events combined with live music from local buskers and all food being locally sourced, it is a winning combination. Owner, Martin Wakley, keeps it real and in true busker tradition, passes around the hat at the end of each performance!

This multiple award winning cafe is another shining example of the diversity of businesses in Wolverton. Celebrating their first year of trading, they are already looking to expand their premises.

Mark said, "I was very impressed with the originality of Buskers and delighted that our local artists have such an incredible venue in which to perform".
