

Mark welcomes Skills 4 Life training programme to the Jesus Centre

Mark Lancaster MP, met with the MD of City London College at the Jesus Centre in Milton Keynes to celebrate the launch of a new training skills programme.

A partnership has been forged with the Jesus Centre to focus on providing training skills for adults over the age of 24 years. The Skills 4 Life programme offers fast track training, ranging from plumbing to accountancy, all of which result in qualifications that are recognised by employers.

In line with half a million apprenticeships started nationally last year, the Skills 4 Life programme is a welcome initiative for the young people who attend the Jesus Centre.

Mark said, "Schemes such as this are of great benefit for the local community. I know that both individuals and businesses will gain immensely from the Skills 4 Life programme."
