

Unemployment Figures Continue To Fall

Yet another decline in the September unemployment figures was announced for Milton Keynes North yesterday.

Statistics show that during the month of September claimants have continued to fall significantly. Compared to this time last month, there are now 152 less claimants and overall there has been an encouraging 49% drop in unemployment in Milton Keynes North since May 2010.

Youth unemployment has also seen an encouraging and consistent decline, with figures for September down a further 50 on last month. This indicates that youth unemployment has fallen by 60% over the last 4 years across the constituency of Milton Keynes North.

This great news for MK demonstrates a continuing positive message that this government is determined to increase employment opportunities and give hard-working people an income to provide for their families.
