

MK Jobs Fair 2015

Another successful MK Jobs fair was held in centre:mk this weekend.

Iain and I were delighted that having instigated the very first jobs fair three years ago, that we've seen the event developing with major recruiters, Santander, IKEA, John Lewis and the armed forces amongst many more at the two day event.

Thousands of people were able to talk face to face with businesses and organisations and have the opportunity to understand the types of roles that they had available.

Take a look at the events of the opening day
