

MK Welcomes the Apprenticeship Show

The first National Apprenticeship Show opened its doors this morning and I was thrilled to see first-hand the influx of students, teachers and parents besiege the national and international companies showcasing the apprenticeships on offer.

Held at Arena MK, it was an impressive start to the two day event, where 3000 schools were invited to share in the wealth of opportunities available. This show emerged thanks to the successful MK Job Show that attracts 100,000 people to MK each year.

With the endorsement that MK has one of the fastest growing economies in the UK its only right that we encourage further growth and demonstrate that the future for our young people has a wealth of opportunities.
