

A Poetic Thank You!

My constituent Janet, called the office last week about an issue causing her some concern. Â We were able to quite quickly reassure her and put her mind at rest. Â That was the end of the matter, or so we thought.

We deal with scores of constituents concerns each week, on a whole range of issues and it was particularly heartwarming to receive a thank you, even more so a thank you such in poetic form! Â

Â

Â

Protect our Green Spaces

I heard a distressing rumour

only the other day,

that green space near my home

may soon be built on,

so I emailed my MP right away.

Â

It did not take long

for me to receive a reply,

from Case Worker Richard Gates,

he said no plans for building,

the rumour was a lie.

Â

Cannot imagine not been able

to see green space and trees,

just more and more houses,
more vehicles, more people,
some planning person to please.

Â

So now I can sit back,
and enjoy the scene once more,
reassured that the green space
will remain looking as it is,
appreciated by me for sure!
